

## Centaflex Continuous Hinge

An established concept in hinge design. Centaflex is a stylish, one piece, continuous hinge developed taking full advantage of the latest advances in new materials and manufacturing technology.

The membrane of the Centaflex hinge is a flexible resin comprising of a patented blend of polyester elastomers combining the high strength of engineering resins with excellent flexibility. The result is that the Centaflex hinge has an excellent flex-life at temperatures ranging from -40°C to 50°C

During the manufacturing process; co-extruded rigid P.V.C profiles are fused together with the molten, Centaflex hinge membrane creating an extremely strong and resilient hinge. For example a one metre length fitted horizontally has a S.W.L of 100kgs.

Centaflex is a well designed hinge offering many advantages over conventional continuous hinges currently available. Just look at the list of features Centaflex hinges offers.

- Durable - tested to over 50,000 operating cycles
- Secure - interlocking profile when closed.
- Maintenance free.
- Aesthetically pleasing-low exterior profile.
- Concealed fixings.
- Easy to fit.
- Weatherproof continuous seal.
- Corrosion resistant.
- U.V light stabilised.
- Excellent flex life.
- Competitively priced.

### 2.2231/016

1.6m length. Black finish.

### 2.2231/030

3m length. Black finish.

### 2.2232/030

Centaflex continuation mouldings (10m rolls).

Self adhesive side moulding.

A self-adhesive, side moulding  
Made from black P.V.C.

Extrusion which has been

Specifically designed to continue

the low hinge profile along the full length of the application, thus, enhancing the vehicle's appearance.
