

Cabin Fans

Applications in motorized homes, campers, buses, vans, cars, trucks, and RV's. Wherever air movement is required, these fans will do the job.

The base can be dash or wall mounted and adjusted to direct the air where needed. The self-locking ball and socket base is spring loaded to hold the position.

Electrical assemblies have been designed to automotive standards and are available in 12 or 24 volt DC (24V in matt black only).

7.FP103-12

12 Volt cabin fan.

7.FP106-24

24 Volt cabin fan.

Colour: Black. **Height:** 21.3cm. **Depth:** 13.5cm. **Guard Diameter:** 18.4cm. **Blade Diameter:** 16.5cm.

Fans

7.ZFM2

Oscillating fan. 12 V.

7.ZFM4

Oscillating fan. 24 V.

Height: 23mm, **Depth:** 16mm. **Guard Diameter:** 18.5mm. **Blade Diameter:** 16.4mm.
