

Lift-Off 'Torpedo' Hinges

Our popular 'torpedo' hinges are widely used for electrical cabinets and enclosures, allowing doors to be quickly mounted or removed from frames. Chromium-plated finish and 10mm stainless steel pin gives good resistance to normal environmental conditions. Left-hand and right-hand.

2.7/10015

Lift-off hinge, RH, chrome.

2.7/10016

Lift-off hinge, LH, chrome.

- Door lift-off fixed pin in bottom half of hinge. Use LH and RH together (opposed) when door is required to be permanently fixed.
- Plant-on, and secured through countersunk holes in hinge leaf.
- Bright chromium-plated or raw finish (for painting). Black to special order.
- Zinc alloy die-cast, with stainless steel pin.
- Rig-tests show that two hinges (on a 1 metre frame) carried a load of 60kg. (130lb) without damage equivalent to a moment of force of 60 NM (3.43KN).
- Hinges will open fully forward to 180°, backward to 60° from horizontal.
