

## Lightweight Cronapress Contact Strip

### 10.99026

Base -Sliver anodized.

### 10.99028

End Caps.

### 10.99029

Plastic insert.

### 10.99031

Wiring & circuit connector.

## Contact Strip

For ease of handling, the aluminium base is supplied already drilled in 1.54m lengths, which are easily connected together by sliding sleeves (supplied) to build up to any desired length.

The plastic strip is supplied in one piece, being on the total length of the assembled base, and the whole assembly is finished off by end caps to match, which increases the overall length by 76mm.

The special plastic insert now used in place original retractive rubber strip does not oxidise flexible tinned cadmium/copper contact.

Supplied in any length up to 36.6m. If a continuous length greater than 36.6m is required, this can catered for by welding the extra amount t PVC strip.

The weight per foot run is 0.6kg/m.

### AS INDICATED IN THE SECTIONAL DRAWING ABOVE, THE CONSTRUCTION CONSISTS OF:

1. Plastic/metal pressure strip of superior quality: plastic is black so as not to show soiling in service. Tinned copper contact strip.
2. Optional 'bell' or 'press once' label available for vertical (as illustration) or horizontal (ceiling) mountin Please state requirements.
3. Aluminium base, fluted and anodised in silver or gold colour.
4. Space for circuit wiring.
5. Overall size: 45mm x 12mm.
6. Rigid brass rail, stoutly insulated from a aluminium base to form a fixed contact.
7. Fixing holes - concealed by plastic strip.
