

Roller Visor

Why A Roller Visor?

For the professional driver maximum protection from glare is essential especially where continual driving or long distances are involved.

The Widney Roller Visor offers the most adequate protection against bright sunlight or glare, particularly where a large area of screen is exposed.

With effortless operation the visor can be instantly adjusted to obtain the best cover and optimum position for good visibility. Unlike tinted transparent stick-on visors, the roller visor when not in use reveals the full depth of screen for unimpaired vision.

Features:

- Steel cross member with aluminium scissors designed to accommodate any production width.
- Simple fitment to the vehicle by 2 bolt on brackets.
- Single or double drop options giving a range up to 600mm.
- Finished in black polyester powder coat.
- Fabric materials in black or grey as standard.
- Off the shelf widths at 546mm, 813mm and 1029mm.

8.83/50171/1
