

Spring Hinges

Multi-Functional Spring Hinges

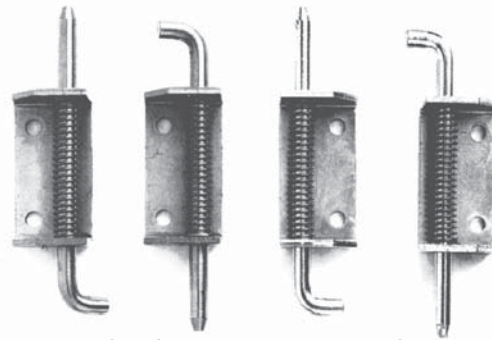

Hinges that offer added flexibility in production processes and easy usage thanks to features such as their;

Dismount ability: With a retractable pin allowing quick and easy removal of doors for auxiliary-fittings or finishing work at any stage of production.

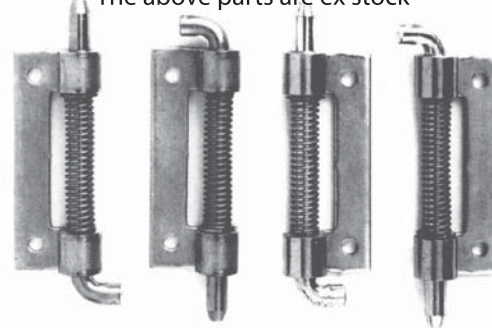

270° swing-span: Enabling completely free access for maintenance work.

Multiple uses: Serving as locking or indexing devices. Welded or screw-driven, they are easy-to-assemble and use, concealed and thanks to their function ability-economical. Available for immediate delivery: left hand and right-hand models zinc-plated and stainless steel.

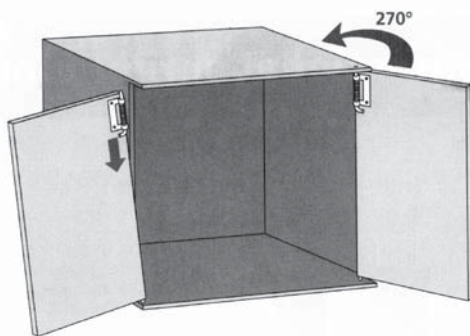

For custom-made pins, we look forward to hearing from you.
